Akillis collections are the perfect blend of cutting-edge technology and traditional expertise. Precious materials come to life in the hands of our craftsmen, giving rise to avant-garde jewelry. With her expert eye, Caroline Gaspard selects rare and fascinating stones

such as opals with hypnotic reflections and Paraiba tourmalines in captivating shades of neon blue and green from the Caribbean seas. These gems, precisely cut with the signature Akillis trilliant cut, bring a touch of boldness and uniqueness to each piece.
